Hi Steve,

I know you're busy so I figured this may be easier for us to touch base. Have you talked with Matt Francis about the flow? We have it fixed, it was a units issue and I apologize.

I have been told by Elliott and Dave Robinson two different ways to charge my time for work up here. Dave suggested all time on the mountain is charged to the original Gold King TDD and all sampling/Durango time is charged to the ER. How would you like me to proceed?

I would like to demobilize from the site Friday evening. This will give me the full week of presence here as well as give Elliott a vehicle so he does not need to rent one on the project to get back up here on Monday. I am available to come back up on a limited schedule (we can chat if you are interested, but I do have a funeral to attend).

Thanks and I'll see you on site tomorrow,

Megan Oller
